

Municipal Design Review Network—July Meeting

The next Municipal Design Review Network meeting will be on July 22, at DePaul's accessible O'Hare campus in Des Plaines, from 9:00 - 11:45 a.m.

As suggested at our recent events, this meeting will focus on current issues and practical aspects of sign control - including the latest digital signage technology. The agenda will include experienced speakers from Duncan Associates and municipalities involved with recent ordinance updates. There will also be opportunities for breakout discussions of related topics.

Please mark your calendar for Tuesday, July 22 to attend this next meeting for timely issues and updates on the Chaddick Institute survey of design review best practices.

We would also appreciate your early RSVP now so that we can proceed with further plans for meeting materials. Please email Joe Kearney at jkearne2@depaul.edu to reserve your seat.

You can also contact Joe Kearney or John Hedrick (ScenicIllinois@aol.com) if you have any questions or suggestions for this next meeting.
