Problem(s)

Want to faithfully capture classroom experience and make available to students

Want to prerecord content that is more than just narrated PowerPoint.

Why?

Teach Better (*hopefully*)

Flipped / Hybrid Classrom

Lower Cognitive Overload (*for students*)

Doceri

Using Doceri

- Free, watermark removed for \$4.99
- Wrist guard
- Exports to Facebook, YouTube, Email, camera roll
- Companion (\$30) desktop application - control computer via iPad
- Cumbersome to import presentations

Doodlecast Pro

Using Doodlecast

- Easy import Keynote/PowerPoint to PDF to Doodlecast
- Videos saved to Camera Roll
- 60 minutes (10MB per minute)
- Stops recording as you move from slide to slide

Educreations Interactive Whiteboard

Using Educreations

- Videos are published through their portal. Embedding is allowed, but only for public videos
- Cumbersome to import presentations
- Designed for short public tutorials

Explain Everything

Using Explain Everything

- Good for importing from Keynote or PowerPoint (Keynote app lets you open in Explain Everything - this takes some time)
- Stops recording as you move from slide to slide
- Possible to edit/rerecord audio for each slide
- Exporting can take some time

ScreenChomp

ShowMe Interactive Whiteboard

Using ShowMe

- Clean interface
- Exported to website (personal or public)
- Can download as an MP4 (from website)
