M.S. in Real Estate

Learning Outcomes

Graduates will:

- Process an understanding of the historical development of real estate markets and the impact on future risk and valuation in Chicago, nationwide and globally.

- Be able to use analytical, computational, and evaluative skills in financial and quantitative real-estate decisions.

- Be able to recognize and analyze ethical and legal problems within applied business situations, choose a resolution, and justify that ethical choice.

- Be knowledgeable about the differences among global economies, institutions, and cultures and will understand the implications these have on global management.

- Understand the legal and regulatory standards within the real estate context.
