M.S. in Sustainable Management

Learning Outcomes

Graduates will:

• Demonstrate the ability to recognize and evaluate assumptions, major alternative points of view and related theories, principles, and ideas relevant to the question, issue, and/or problem.

• Acquire both knowledge and skills that are broad, deep, and necessary to fulfill their professional goals.

• Be able to effectively contribute to the performance of a group as the group addresses practical business situations, and assume a leadership role as appropriate.

• Produce a coherent written statement and oral presentation of the analysis of a complex business issue.

• Be knowledgeable about the differences among global economies, institutions, and cultures and will understand the implications these have on global management.
