M.S. in Entry to Nursing Practice (MENP)

Learning Outcomes

Students will be able to:

- Analyze nursing concepts, theories, and research to design, implement, and evaluate family-centered and community-based models of professional nursing.

- Develop a personal philosophy of professional nursing in the context of extant philosophies, nursing's history and evolution as a discipline.

- Promote professional awareness of multicultural practice within nursing.

- Contribute to excellence in patient care and advances in nursing knowledge across the lifespan through advanced health assessment, evidence-based professional practice, systematic inquiry, planned innovation, and dissemination of information to consumer and professional audiences.

- Assume a leadership role within the health team and the profession for safe, effective and affordable health care with individuals, families, and communities.

- Demonstrate autonomy, integrity and social justice in professional nursing practice.

- Analyze professional codes and standards as a basis for professional nursing practice and service to a multicultural society.

- Use an analytical framework to evaluate information systems and technology in health care.
