M.A. Applied Professional Studies

Learning Outcomes

Students will be able to:

- Develop knowledge, skills, habits and perspectives critical to understanding and contributing at advanced levels with respect to their individualized areas of study.

- Develop as reflective practitioners who are able to affirm, adjust and/or expand what they know and do in executing their individualized areas of study.

- Apply traditions and methods of inquiry to effect ongoing improvement in their individualized areas of study.

- Enhance employability in the diverse arenas related to their individualized areas of study.

- Prepare for advanced academic study if/as they desire to pursue such.
