Creating Learning Objectives

Please create three learning objectives that can be supported by at least two or three of the primary sources used in the activity.

Learning Objectives:

____________________________________________________________________________
____________________________________________________________________________
____________________________________________________________________________

Please state how you would engage students with the primary sources. For example, how would you draw on student’s prior knowledge of the topic?

____________________________________________________________________________
____________________________________________________________________________

What questions would you ask students to encourage them to closely observe the primary source? If using the audio, what questions to encourage them to closely listen to the audio?

____________________________________________________________________________
____________________________________________________________________________

What questions would you ask students to encourage them to think about their personal response to the sources?

____________________________________________________________________________
____________________________________________________________________________

How would you promote student inquiry? For example, how would you encourage students to speculate about each source, its creator and context?

____________________________________________________________________________
____________________________________________________________________________
____________________________________________________________________________

How would you encourage students to apply their critical thinking and analysis skills to primary sources? For example, have students summarize what they have learned? Ask them to provide reasons and specific evidence to support their conclusions? Help students identify questions for further investigation, and what research to carry out to answer their questions.
